

We have a requirement for Mule soft developers with both Mule and Azure Experience. This is a full time position for our in-house. The candidate has to work in the US time zones preferably EST. The first 2 weeks will require for the candidate to be on site. (North America). Travel will be covered.

Position: **Mule Soft Developer**

Experience: **6-9 yrs**

Minimum requirements for a Senior Mule Soft Developer:

- A minimum of 4 years hands-on work on Mule Soft with Azure experience along with java back ground.
- Experience with Mule Soft Any point Runtime Manager (ARM)
- Experience building, testing, and deploying Mule Soft applications using Mule Soft Any point Studio
- Strong Java skills and experience with JSON and XML
- Hands-on experience with various design patterns within Mule Soft such as Scatter-Gather
- Solid understanding of the Mule Soft exception-handling capabilities and how to integrate those concepts into solution design
- Ability to translate business requirements into a comprehensive, well-formed technical design
- Understanding of the difference between Restful and SOAP Web Services
- Excellent written and verbal skills are essential
- Understanding of project priorities, timelines, budget, and deliverables and the need to proactively push yourself and others to achieve project goals
